

JACKKNIFE

Alfalfa

Profile

JACKKNIFE is the ultimate multi-tool in your forage arsenal – engineered to deliver exceptional yield, premium quality, and unmatched adaptability. Developed through a non-GMO breeding program, the new variety combines the best of all root systems – branching, tap, and creeping – to thrive across diverse conditions and management styles. JACKKNIFE consistently delivers top-tier tonnage and digestibility, making it a standout performer in both hay and haylage systems. Whether you are chasing yield, quality, or stand longevity, JACKKNIFE delivers – no compromises, no shortcuts. It is the alfalfa.

- adapts with its branching root base, taproot depth, and creeping root spread
- Sunken Crown
- Elite disease resistance, 34/35 disease index (DRI)

Graph
